Saw for carpentry

Product reference

4565-14

Backsaw with 350mm bi-
material handle / 456512

Brand

Bellota

EAN code

8414299313741

Use

For wood cutting, particle boards and other materials.

Bullet points

Heat treated. High carbon content Japanese steel blade with triple edged teeth.

Cuts wood quickly and safely, and don't be afraid of it wearing. Durable sharpness.

The most comfortable saw. Ergonomic, bi-material handle with aluminium base and core, smooth to the touch.

Description

Professional backsaw with double fine toothing (10 TPI), for a clean and precise cut, with double heat treatment for higher performance. Integrally heat-treated blade for maximum durability and ribbing at the top to ensure rigidity during cutting..

Ergonomic bi-material handle, designed to transmit all the force along the entire toothing and to direct the cut. For cutting wood, chipboard, plaster, plastic and other materials, good finish.
