DIY Cup Brush Stainless Steel Corrugated Wire / 50808- 50 I

Brand	EAN code	Use
Bellota	8414299633733	For undemanding cleaning jobs and removal of paint, varnish, rust and small burrs with normal drills of up to 4,500 rpm.

Bullet points

Cleaning will no longer be a hassle. End brush, stainless steel, corrugated wire 75 mm in length and 0.3 mm in diameter
The ideal brush for undemanding jobs: cleaning and removal of paint, varnish, rust and small burrs...
There's only one limitation! Ideal for use in normal drills with a maximum speed of 4,500 rpm.

Description

Cup brush made of 0.3mm-thick stainless steel corrugated wire, with high wear-resistance and excellent performance. With 6mm bolt for use in drills up to 4,500rpm. For removing welding scale, cleaning rust from metal surfaces, removing paints and coatings and treating surfaces such as wood and stone. Special for contamination-free cleaning of rust and soot stains on stainless steel, aluminium or special alloys.
