Conical industrial brushes

Product reference

50817-1151

Industrial Conic Brush Brass Coated Steel Corrugated Wire / 50817-1151

Brand

Bellota

EAN code

8414299374728

Use

Industrial brush for mini-grinders. Recommended for use on large metal surfaces to brush, clean and remove paint, varnish, scale, rust and small burr.

Bullet points

Cleaning will no longer be a pain with your braided and hardened steel industrial conical brush for high speed and heavy duty cleaning work. Up to 12,500 rpm.

Keep welding scale, rust, coatings and paints away to keep everything clean. For mini grinders, M14.

Perfect finish. For a professional work with the best results.

Description

Industrial conical brush for high speed drills, made of hardened steel braided wire, with high wear-resistance and excellent performance. M14 screw thread for angle grinders and mini grinders up to 12,500 rpm. For heavy duty works of removing welding scale, cleaning rust from metal surfaces, removing paints and coatings and treating surfaces such as wood and stone. Specially designed to clean without damaging the surface with less noise and spark than an abrasive tool.

Characteristics and attributes
