Product reference

8030 CI CF

Carbon Fibre Handle Shuttering Hammer with magnet 0.72kg / 8030CICF

Brand

Bellota

EAN code

8414299439816

Use

If you need to assemble formwork and you're looking for your hammer, this is the perfect choice for striking parts, primarily of sheet metal or steel. You'll also be able to remove 0-1 mm thick tacks.

Bullet points

Every strike will be successful. Ideal for assembling and disassembling formwork. High quality forged steel with homogeneous hardening and tempering. Will not break, warp or wear. Equally reliable and safe. It also includes a magnet so that you will never miss the first hit, making your work easier.

The most exclusive of its kind. Registered utility model. Steel cap that will extend the useful life of the product and ensure a perfect position when removing nails.

Carbon fibre, resistant, ergonomic handle and with lateral grooves handle to prevent slipping and enable striking and levering.

Description

Professional shuttering hammer with forged steel head and magnet (hardness control in the striking and nail areas) tip extraction 0-1mm. Carbon fibre handle(metal cap) with increased strength and lifespan, with lateral grooves for a better grip and oval handle for improved ergonomics, directs the strike and prevents the head from turning when striking Guarantee on the conical joint (safety). For shuttering and levering work.
