

FOR CONSTRUCTION / MASONRY / CHISELS /
Brick chisel

Product reference

8271-80

Brick chisel made of Cr.V. steel.
230x80mm / 827180

Brand

Bellota

EAN code

8414299037272

Use

Use it for general breakage, for channelling, removing concrete remains or those of other materials.

Bullet points

Can cope with anything. Highest quality chrome vanadium steel, induction tempered and totally hardened.

Avoid fights and injury. Heat treated in three distinct work areas: head, edge and body.

It will be with you for many years. Angled, bevelled and varnished tips.

Description

Professional brick chisel made of high quality chrome vanadium steel, with induction hardened and tempered areas. Differentiated heat treatment in the 3 different working areas: Head (to ensure user safety), Tip (for maximum duration and service life) and Body (to reduce vibrations when striking). Ground, chamfered and varnished tips. For opening grooves and masonry work.
