6 Wedges for Hammers and Drilling Hammers / 8976 BL

Brand

Bellota

EAN code

8414299572667

Use

Your safety is what matters most: Better fit between handle and head, it won't get away on you. Excellent fit.

Bullet points

These are the only fibreglass wedges like this on the market. Exclusive. Patented. The safest. Perfect fit between handle and head, making your work more comfortable and precise. Forget about wear. Fibreglass and polyamide provide high resistance to rust.

Description

Pack of 6 patented fibreglass wedges to achieve the best joint between the wooden handle and the head of hammers or drilling hammers. This wedge provides greater safety, excellent resistance to corrosion, weathering and temperature, thus ensuring a more stable joint over time.
