Manure Fork with Handle / 902-5 MA

Brand

Bellota

EAN code

8414299156171

Use

Collects hay and manure easily thanks to its sharp, hardened prongs along their entire length.

Bullet points

Unbreakable. Five-prong fork forged in one single piece with Bellota special steel. Heat-treated. It will last a lifetime, does not break, does not deform and does not wear out. The prongs are sharp to hold the bales well and hardened along their entire length to better withstand the weight. They are painted to prevent rust and facilitate maintenance.

Handling bales will be easier. With a metal ferrule joint and a soft-touch PEFC ash wood handle. Metal D-handle.

Description

Five-prong fork made of special steel and forged in one single piece for collecting hay and manure. Metal D-handle and perfect joint between head and handle thanks to a ferrule. The prongs are sharp and hardened along their entire length. Painted with special paint to prevent rust.
