Hay Rake / 903-4

Brand	EAN code	Use
Bellota	8414299156287	Breaks bales with ease thanks to the sharpened prongs, tempered along their entire length.

Bullet points

Unbreakable. Four-prong hay rake forged in one single piece with Bellota special steel. Heat-treated. It will last a lifetime, does not break, does not deform and does not wear out. The prongs are sharp to break up the bales well and hardened along their entire length to better withstand the weight. They are painted to prevent rust and facilitate maintenance.
Handling bales will be easier. Help yourself with the soft touch PEFC ash wood handle, you can choose among long, T or D handle.

Description

Four-prong hay rake made of special steel and forged in one single piece for bale breaking. Reinforced socket for a perfect joint between head and handle. The prongs are sharp and hardened along their entire length. Painted with special paint to prevent rust.
