Spare part for electric range

Product reference

ECCHETY125P

Charger 14.4V - tying machine/
ECCHETY125P

Brand

Bellota

EAN code

8414299691092

Use

You can charge your batteries automatically one by one.

Bullet points

Two-way charger. It allows to connect three batteries for charging. The charge is consecutive, i.e. they are charged one after another. This allows to have the batteries available as soon as possible.

Description

Two-way charger for lithium-ion battery for cordless electric tying machine. Allows simultaneous charging of the two batteries. Charging is consecutive, so there is no need to wait to charge all the batteries to start using them. With a full charge and charging in progress indicator.
