

FOR AGRICULTURE / ELECTRICAL RANGE / CUTTING AND PRUNING /
Light electric tying machine

Product reference

ETY125P

Battery-powered electric tying
machine - 25mm tying diameter
/ ETY125P

Brand

Bellota

EAN code

8414299690774

Use

To tie up vines.

Bullet points

Very light: With just 1 kg it will make your work easier, so you won't be as tired at the end of the day.

Fast and versatile: You will finish tying quickly just by pressing the trigger. There are 4 tying functions to choose from, according to the one that adapts better to the size of the branch. Mode 1 for the thickest branches (3 turns) and mode 4 for the thinner branches (6 turns).

Sustainable: Because, just like you, we care about the environment as well, our thread is covered in biodegradable paper.

Description

Electric tying machine with lithium-ion battery. With a 25mm maximum tying diameter. It has a maximum power of 500W, brushless motor and a maximum voltage of 16.8V. You will finish tying quickly at the pull of the trigger. You will be able to choose among 4 tying functions the one that best suits the diameter of the branch. Four tying modes: 1 for thicker branches (3 rotations) and 4 for thinner branches (6 rotations).

Because caring for the environment is one of our priorities, our thread is coated with biodegradable paper.

Characteristics and attributes

Attributes

Maximum tying diameter (mm): 25

Number of batteries: 2

Characteristics

Tying functions (no.): 4

Power (w): 50

Maximum voltage (V): 18.8

Rate voltage (V): 14.4

Amperage (Ah): 2.5

Engine type: Brushless

Working temperature (°C): -10°C ~ 60°C

Tool dimensions in use (Length x Width x Height mm): 310x80x260

Weight without battery (in g): 870

Weight with battery (in g): 1098

Item dimensions

Article length (in mm)	Article width (in mm)	High article (in mm)	Net weight (in kg)
360	330	111	2.46

Gross Weight (Kg)

2.88

Finishes

Material	Colour	Finish
Steel, Polypropylene, Aluminium, Lithium Ion	Red, Black, Metallic	Matt
