Carbon Fiber Handle for Sledge Hammers / M 5200-6 CF

Brand	EAN code	Use
Bellota	8414299625479	Carbon fibre handle for sledgehammers, to help with your striking. Valid for Ref.: 5200-5/5200-6/5460-3CF.

Bullet points

Unbreakable. Tri-material handle: carbon fibre core, polymer body and elastomer coating.
Design and comfort are not at odds with each other. Ergonomic design adapted to the geometry of the tool. Comfortable grip.
Contains lateral grooves to prevent hands from sliding along the handle.

Description

Carbon fiber handle for sledge hammers, made of three materials that make it unbreakable: the carbon fiber core is light and resistant, the technical polymer body with elastomer coating provides greater ergonomics and shock absorption. The handle fits perfectly with the geometry of the tool and its shapes have been adapted to the grip and use positions of the hand, in order to provide better confort and grip. Lateral grooves in the grip area to improve the anti-slip effect.
