Bullet points

PEFC™-certified beechwood handle. The wood comes from  
sustainably managed forests.

Design and comfort are not mutually exclusive. Ergonomic  
design adapted to the shape of the tool.

Perfect and safe conical joint.

Description

PEFC™-certified beechwood handle for shuttering hammer model 8030, which guarantees the chain of custody of the wood we use  
to manufacture the handles. These handles are made of premium quality wood and are light and pleasant to the touch. Their  
ergonomic design adapts to the shape of the tool and their varnished finish allows a perfect grip.
